SOFTWARE ENGINEER

Passionate and motivated software engineering undergraduate with a keen interest in leveraging expertise for website and mobile application development. Committed to delivering high-quality solutions, I am dedicated to improving both as a skilled engineer and an individual. Eager to contribute dynamic skills and a strong work ethic to advance projects in the field of software development.

SKILLS AND PROFICIENCIES

HTML/CSS

PHP

Typescript

React.js / React Native

UI/UX

Figma / Photoshop

Excellent communication skills

Proactive and self-motivated

Team Management Skills

PROFESSIONAL EXPERIENCE

Credminds

July 2024 - Present

MERN Stack Developer

At Credminds, I leverage my full-stack expertise to develop and maintain various projects utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js). Beyond web development, I also contribute to mobile application creation with React Native and backend functionality using Golang.

Technobooks

Feb 2024 - July 2024

Associate Software Engineer

As an Associate Software Engineer, I leveraged my expertise in the MERN stack to develop and maintain engaging web applications. I actively engaged with React Native and Next.js to further expand my abilities in building cross-platform mobile and dynamic server-rendered web experiences.

Undefined Tech

Sept 2023 - Nov 2023

React Native Intern

As a React Native intern, I contributed significantly to the creation, redesign, and maintenance of mobile applications. I played a key role in enhancing the user interface (UI) and optimizing the user experience (UX) for existing applications, while also actively participating in the implementation of diverse features.

TriconV Technologies

Dec 2022 - June 2023

Laravel Developer

Worked as a full stack developer, I was responsible for creating and maintaining websites using the Laravel and React.js framework, as well as semi-managing a team of interns.
